MOTION FOR COMPARISON OF DNA EVIDENCE

Pursuant to KSA Chapter 60 and KSA 21-2511 comes now petitioner, David L. Woodward, and for cause sets forth as follows:

1. Evidence, fingerprints, hair and other materials were found relative to my alleged crime of felony murder. NONE ever matched my materials submitted.
2. Material information has arisen that would compel prudent men to question & ask for the fingerprints and other DNA evidence herein to be compared against one felon known as Doll E. Lane. Statements have come to light that Lane was involved in the homicide in question.

WHEREFORE, Petitioner prays that genetic markers - DNA - be made of hair samples preserved in evidence concerning case 91-CR-792, and such and all results of testing thereto be provided forthwith. Petitioner also prays that the court appoints petitioner new and different counsel in this matter.
