ORDER

This matter is before the Court on Class Plaintiffs' Omnibus Renewed Motion to File Under Seal Their Oppositions to Defendants' Motions to Exclude and Motions for Summary Judgment (ECF No. 2239). The omnibus motion includes sealing and/or redaction requests for six documents Class Plaintiffs provisionally filed under seal:

- Class Plaintiffs' Opposition to Defendants' Motion to Exclude the Expert Opinions of Dr. Carl Peck (ECF No. 2182);
- Class Plaintiffs' Opposition to Defendants' Motion to Exclude the Expert Opinions of Meredith Rosenthal and Related Documents (ECF No. 2183);
- Class Plaintiffs' Opposition to Defendants' Motion to Exclude the Expert Opinions of James Bruno (ECF No. 2184);
- Class Plaintiffs' Opposition to Defendants' Motion to Exclude the Expert Opinions of Professor Einer Elhauge (ECF No. 2187);

- Class Plaintiffs’ Memorandum of Law in Opposition to Defendants’ Motion to Exclude Plaintiffs’ Rebuttal Report Regarding the ‘827 Patent and Related Documents and Certain Associated Exhibits (ECF No. 2188); and
- Class Plaintiffs’ Opposition to Defendants’ Motions for Summary Judgment and Related Documents (ECF No. 2190).

As the Court has previously noted, the Supreme Court recognizes a “general right to inspect and copy public records and documents, including judicial records and documents.”¹ The public’s right of access, however, is not absolute.² The Court therefore has discretion to seal documents if competing interests outweigh the public’s right of access.³ In exercising its discretion, the Court weighs the public’s interests, which it presumes are paramount, against those advanced by the parties.⁴ The party seeking to overcome the presumption of public access to the documents bears the burden of showing some significant interest that outweighs the presumption.⁵

The Court has reviewed each of the excerpts and exhibits that are the subject of this omnibus motion, and has considered the position taken by each party or third party relative to the excerpts and exhibits. Although this Order does not provide an explanation for each ruling, the Court notes that in many instances the reason for denying a particular request to redact or seal is

² *Helm v. Kansas*, 656 F.3d 1277, 1292 (10th Cir. 2011); *Mann v. Boatright*, 477 F.3d 1140, 1149 (10th Cir. 2007).

due to the information in question later appearing as a matter of record in District Judge Crabtree's Memoranda and Orders. This is particularly applicable to Class Plaintiffs' Opposition to Defendants' Motions for Summary Judgment and Related Documents (ECF No. 2190). Judge Crabtree ruled on Defendants' Motion for Summary Judgment in a Memorandum and Order dated June 23, 2021 (ECF No. 2381). But in all instances, the Court has allowed sealing or redaction when the party seeking to overcome the presumption of public access to the documents has met the burden of showing some significant interest that outweighs the presumption. And the Court has denied requests to seal or redact when the party seeking to overcome the presumption of public access to the documents has not met the burden.

Applying this standard, the Court grants the Renewed Motion in part and denies it in part as set forth below.⁶
